People visiting the school for concerts, grad, award ceremonies, sports events, etc. from Boissevain and other communities will see the support you have given for the playground project.

## CURRENT CHALLENGES

- There is no outdoor recreation space for High School students to be active during lunch and spares.
- There is a need for accessible and affordable outdoor recreation spaces for older youth and adults in our community.
- Primary playground is not accessible and equipment is in poor condition, many pieces date back to 1970. Equipment is starting to be removed, as it is becoming unsafe.

## PROPOSED PROJECT

- **Phase 1:** Rebuild Middle Years Playground
- **Phase 2:** Summer 2026 | Resurface the old tennis court to the north of the school to create a multi-generational sport court, including a basketball court, two pickleball courts and accessible bleachers for high school students and the community.
- **Phase 3:** Create a safe, fun and accessible playground in the Primary area.

In addition to students using the new spaces during the school day, all members of the community and visitors will be able to enjoy them after school, on the weekends and throughout the summer.

Boissevain School is located close to the campground, swimming pool, daycare, ball diamonds, soccer fields and ice cream shop, making it a great place to stop for a play.
